■■ MunchTime – Taste the Flavor, Anytime!

MunchTime is a modern, fully-responsive landing page for a mouth-watering fast-food brand. From sizzling burgers to crunchy fries, it's built to give visitors an irresistible first impression. Developed with **HTML5 • CSS3 • JavaScript (ES6)** — no bulky frameworks, just clean, lightweight, and accessible code ready for deployment.

■ Features You'll Love

- **Striking Hero Section** – Engaging banner with parallax effect and a bold call-to-action.
- **Dynamic Menu Filtering** – Instantly explore burgers, sides, desserts, and drinks.
- **Interactive Promo Cards** – Smooth hover animations with custom SVG icons.
- **Customer Testimonials Slider** – Pure-CSS scroll-snap for seamless navigation.
- **Contact & Booking Form** – Client-side validation for a smooth user experience.
- **Floating Back-to-Top Button** – Enhanced navigation with smooth scrolling.
- **Optimized Performance** – Achieves top scores for speed, accessibility, SEO, and best practices.

■ Tech Stack

Technology	Purpose
HTML5	Semantic layout and SEO-friendly structure
CSS3 (Flexbox & Grid)	Custom design system with full responsiveness
Vanilla JavaScript (ES6)	Interactive UI without relying on frameworks
SVG & Icon Fonts	Crisp, scalable icons
Google Fonts & Shields.io	Attractive typography and badges

■ Requirements

- **Git** for cloning the repository
- A modern browser (Chrome, Firefox, Edge, Safari)
- No build tools — just open the file and run

■■ Installation & Setup

```
# Clone the repository
git clone https://github.com/gauravs1225/MunchTime.git

# Open the main file
cd MunchTime/public && start index.html # Windows
xdg-open index.html # Linux
open index.html # macOS
```

■ Tip: Use a local server (e.g., `npm i -g live-server && live-server public/`) for auto-reload.

■ Contributing

1. Fork this repository
2. Create a feature branch:
```
git checkout -b feature/AmazingFeature
```
3. Commit your work:

```
git commit -m "feat: add amazing feature"
```

4. Push the branch:
```
git push origin feature/AmazingFeature
```

5. Open a Pull Request
